“ *My dear sister/ friend is now "resting from her labor." Candy was a nurse by profession; and I believe she entered the field of her calling. She possessed the compassionate personality that qualified her to care for the many patients that she served in Pennsylvania and Washington, DC. She was a wonderful friend to me and the other members of our childhood clan (Sharon, Denise and myself), and we will miss her dearly. My sincere condolences to David, Herbie, Steve and other family members. With Love, Rita.*

“ *I remember seeing Condis almost every morning when I was coming to work and she was leaving work after the night shift. Although she was probably tired and wanting to get home, she never failed to smile, say hello and sometimes stop to chat for a few minutes. I miss seeing her and am happy that I got to know her a bit.*
