nearly 2,000 employees around the world. He was promoted to Vice President

in 2001,
where he directed the planning and implementation for all facilities and real estate operations at AED's offices in Washington, DC, New York City, Atlanta, Nairobi, and Pretoria. In 2012, he founded Eco Energy Partners LLC in order to assist organizations in addressing energy efficiency issues and conservation by using real-time analytics. In 2018, he joined AMIDEAST, an American nonprofit organization engaged in international education, training, and development activities in the Middle East and North Africa, as the director of facilities, assets, and risk management.

“ *This is very sad news. I first met David around 1998-1999 in Bangkok, Thailand where I was living at that time. When I moved to Hua Hin in 2002, David would often come to visit us there when he came to Thailand. I moved back to Finland in 2008 but we were in touch by facebook all the time. In 2020 he informed me that he had won air tickets to Finland and I was very happy that we could meet again. Then came Covid and travelling was not possible, and he never arrived. I was getting a bit worried when I hadn't heard from him since late September last year. Today, I started searching the internet and found this. R.I.P. my good friend, David and my deepest condolences to his family.*

“ I'd met David during my senior year at Strayer College, and we hung out together in the dorms occasionally. Shortly after graduation, I opened my apartment to David because he had encountered some problems on one of his trips back from Maine. Eventually I'd lost touch with him for quite some time and only reconnected with him a couple of years ago. He will be sorely missed, and my deepest sympathies go out to his family.

“ David was my boss for over 10 years at the Academy for Educational Development (he was Director of Facilities and I was his Deputy) and what a great boss he was-----I will miss him and his leadership techniques very much! We were team players and did a lot to enhance the Academy's reputation.

“ I lived down the hill from David in Monson Maine. He was a great childhood friend who I lost touch with after high school. His passing has caused a flood of memories - all good. He will always inhabit many vibrant memories!
