“ *Keith is the father to our only child. Our relationship began in the Army around 1987ish when we were stationed in New Jersey. Being away from friends and family can be quite lonely at times so the fact that we both were from DC was an instant attraction. It wasn't long before we were spending every single day together, our personalities just jelled. He kept me laughing with his clever type sarcastic sense of humor. Although our romantic relationship ended years later, our love, mutual respect and adoration lasted a lifetime. Not to mention the fact that he gave me the best child anyone could ever ask for. I will miss being able to seek his counsel, our 3 hour long conversations, his laugh and humor. May God bless him, protect him & welcome him home. ...Ann Alexander*
