

## Mr. Keneth Steven Clark

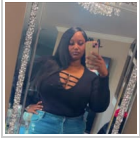

January 6, 1971 - May 19, 2023

My joy what a wonderful gift God bestowed upon me. I never in a million years believed a person could enjoy one human being as much as I adored you. I truly experienced all my emotions with you; the good, the bad and the ugly. You were one of the most sensitive and generous persons I know. I will always love you 😊 and I hope you felt the love I have for you

“ Dear Clark Family,

*I was saddened to hear about the death of Mr. Clark. He was my co-worker at Oxon Hill Elementary School. He had a light about him that illuminated the entire school building. His personality was robust and all of the children looked forward to his appearance in the 4th grade hallway. As my daughter had gotten older, we connected on a more personal level as we would talk about parenting and how he had raised his own children. We also talked about his years at Friendly High School and how he would never go back as he liked his job at Oxon Hill. He also provided me guidance about life, parenting and my career path. I was grateful to have Mr. Clark in my life for the short time that he was. May his light shine for eternity. People like him don't come around often and his wisdom and sometimes fatherly advice I will keep with me forever.*

“ Keneth Clark, my dear God-son meant more to our family than a few words could ever convey. His Mother, children and grandson were the joy of life for him. ...always glorifying God with every accomplishment and success shared whenever each achieved. He would call or come pass our home to check on the property, even when tenants lived there, on our behalf - such care and concern were matchless.

*His service as a computer instructor for the Anne Beers - “Caring Hours” Program, how ironic - his compassion extended beyond his own family throughout the community. Working with “Autism Society, District of Columbia children as counselor, endeared him to many parents.*

*“He fought a good fight, he has won the race...”  
His Peace and Love, too...Gloria Tucker*
