“ *Mother,*

*Words can't even explain my pain level or sorrow right now. Why you ??? Is all I keep asking, why my mother but Onething I know about you COOKIE"YOU STRONG AS HELL" so strong I know you fought and gave it your best. It's funny how I'm of age and would never forget the love you had for me abundantly, we shared some outta this world tuff times , you know kids never forget who had their backs and who was down for them , YOU MADE ME INTO A GRACIOUS BLACK WOMAN, thank you queen, thank you mother , thank you love thank you again mother. Cookie, everything you done and instilled in me are being used upon my 2 sons as well as my everyday life , it's very hard to say GOOD BYE BUT YOU CERTAINLY WAS A ANGEL AND I PRAISED GOD FOR ALLOWING YOU TO CARE FOR ME AS IF I WAS YOUR OWN , thank you Jesus , thank you almighty FATHER GOD , thank you*

*Love ,

“*Mary provided valuable, steady, and reliable service to the Science Advisory Board and enabled the Board to provide the kind of deep quality advice that made a difference. Her contributions played a role in producing the quality of environment that we enjoy today. May it be ever thus.*  
*And all of the people said, "Amen, and thank you, Mary. God bless."*

*Donald G. Barnes, Staff Director of EPA's Science Advisory Board, 1990-2002.*

“*I worked with Mary Winston at the US EPA in Washington, DC in the Office of the EPA Administrator on the Science Advisory Board staff. Mary was always helpful, dedicated to assisting her colleagues, and very supportive of our mission at the US EPA. More importantly, she cared very much about the people she worked with and that we should work as a team to get the job done. She was very quick to learn technology-related things and to help others in learning how to work with the technology to get things done. Many of us at EPA appreciated her positive attitude to help others. I and my family know that she is at peace with the Lord and that she is in a better place.*
