“ *I first met Michel when I was a student at WHC in 1997. If i asked him to hand me something I would always say thank you afterwards. He would say, "you don't have to thank me, I'm just doing my job". And that he did. He did his job and taught many of us how to do our jobs as well. I am blessed to have worked with him at the height of my career. I still hear his voice everytime I say thank you at work. Michel, thank you for doing your job, thank you for being a friend, and thank you for being my cath lab family.*

“ We will all miss MJ. He was truly a very decent man. I am so sorry for the anguish he had to endure with his illness. We have lost a good friend  
My prayers are with Michel and his family

“ Micheal always had the most engaging smile and positive attitude, no matter how serious or stressful the situation would be with a patient in the Cath Lab at the WHC. He was a true team player and a special friend. I am sure God has a special place for him now and I trust the worry less life he has just entered is wonderful for him.  
I accompany his family in their sorrow

RF

Michel was one of many who made my time at WHC so very special. During my training he made it a point to take time to teach and engage as only he could. He will be missed but never forgotten.
