“ *My condolences to the Mealey family. Odell was a mentor and friend to me and we were neighbors. As a retired USAF veteran, I salute Odell Mealey for making a difference in my life and that of my family. I had arranged for Odell to assist me at the time my wife was about to deliver our daughter, I was working at the Pentagon at the time and I received a call from Odell and he went to my house and drove my wife to the hospital where I met him after driving from the Pentagon, ironically my daughter was born a day before Odell, we will never forget Odell Mealey, thank you brother. ...Paul Lawrence Vann, Lt. Col. USAF, (Retired)*
